

Contains Flumioxazin and Chlorimuron-ethyl, the active ingredients used in Valor® XLT.

HERBICIDE

ZALTUS™ XLT

FOUNDATIONAL RESIDUAL WEED CONTROL

Zaltus™ XLT is a selective herbicide for preemergence control of susceptible broadleaf weeds and suppression of annual grasses in soybeans. Zaltus XLT also offers control of certain emerged broadleaf weeds when applied as part of a burndown treatment. The dual modes of action of flumioxazin and chlorimuron-ethyl work together to rapidly inhibit the growth of susceptible weeds for proven preemergence control. For a foundational residual herbicide in soybeans, turn to Zaltus XLT to set your fields up for success.

KEY BENEFITS

- 4-6 weeks of residual control
- Excellent control of tough weeds including waterhemp, pigweed, common ragweed, & giant ragweed
- Broad-spectrum residual weed control

KEY USES

- Soybeans

PRODUCT NOTES

EPA REGISTRATION NUMBER

91234-187

ACTIVE INGREDIENT

Flumioxazin 30%

Chlorimuron-ethyl 10.3%

FORMULATION

Water Dispersible Granule

HRAC NUMBER

14, 2

SIGNAL WORD

Caution

PACKAGE SIZE

4 x 6 lb

RESTRICTED USE

No

Refer to label for specific use restrictions.

Relevant. Simple. Reliable.

SPRING BURNDOWN PROGRAM FOR MIDWEST REGION STATES

Precaution: Do not perform any tillage operation after application or residual weed control will be reduced.

TIMING TO WEEDS

Zaltus XLT, applied as part of a spring burndown program for midwest region states, may be used for preemergence weed control, as well as to assist in burndown of many annual and perennial weeds where soybeans will be planted. For control of emerged weeds, choose the most appropriate burndown tank mix partner from Table 3. For each Zaltus XLT tank mix partner listed, refer to tank mix product label(s) for specific recommendations for control of emerged weeds present, rotational restrictions, plant-back intervals and adjuvant recommendations.

Tank Mix Partners for Control of Emerged Weeds in Spring Burndown Program for the Midwest:

Tank Mix Partners	Target Weeds ¹
2,4-D LVE	Dandelion Giant Ragweed Marestail/Horseweed
Express XP + 2,4-D LVE	Chickweed Species
glyphosate	General Burndown
glyphosate + 2,4-D LVE	General Burndown
Harmony GT XP	Lambsquarters
paraquat	Chickweed Henbit Marestail/Horseweed

¹Refer to tank mix product label(s) for specific recommendations for control of emerged weeds present, rotational restrictions, plant-back

KEY WEEDS

Bittercress
 Carpetweed
 Chickweed, common
 Chickweed, mouseear
 Cocklebur
 Coffee senna
 Copperleaf
 Cutleaf eveningprimrose
 Dandelion
 Eclipta
 Field pennycress
 Florida beggarweed
 Florida pusley
 Giant ragweed
 Hairy indigo
 Hemp sesbania
 Henbit
 Jimsonweed
 Kochia
 Lambsquarters
 Marestail
 Mayweed
 Morningglories
 Nightshade
 Pigweed
 Prickly sida
 Puncturevine
 Purple deadnettle
 Purslane, common
 Ragweed, common
 Redmaids
 Shepherd's-purse
 Sicklepod
 Smartweed
 Spotted spurge
 Sunflower
 Swinecress
 Tropic croton
 Velvetleaf
 Venice mallow
 Waterhemp
 Wild mustard
 Wild poinsettia
